REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

No prior art of reference teaches an inductor comprising a semiconductor substrate; a laminated structure having an insulating layer and a wiring layer alternating layers on the substrate, wherein the laminated structure has a first layer, a second layer and a first insulating layer located between the first and second layers; the first layer has a first wiring layer on which a first winding part and a second winding part in the same plane and disposed adjacent each other are wound; the second layer has a second wiring layer on which a first winding part is disposed having a single path from a first terminal to a second terminal; and said first insulating layer has first and second via holes connecting the first and second wiring layers, a first terminal of the first winding part is connected to a second terminal of the first wiring part through the first via hole and a third terminal of the second winding part is connected to a fourth terminal of the first wiring part through the second via hole; and a first current flows through the first winding part from a fifth terminal to the first terminal and a second current flows through the second winding part from the third terminal to a sixth terminal, with the first and second currents being in opposite directions with respect to each other when a voltage is applied across the fifth terminal of the first winding part and the sixth terminal of the second winding part.

Contact Information

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
